

## Parks/Street & Alley meeting

Tuesday 9/25/18 7pm - City Hall

### Agenda:

- Safe Routes Grant / Sidewalk plan
- Drug testing, incident/accident reporting, and supply purchasing policies
- Budgeting

### Attending:

Bill Crusinberry, Alex Houmes, Ryan Anderson, Chad Yaden, Bill Goodwine, Carl Ankenbrand, Tim Walsh

### **Safe Routes Grant / Sidewalk plan**

Tim Walsh mentioned handicapped accessible sidewalks and Route 9 crosswalk important for the school. Tim going to send the council link to grant packet and info. Ryan mentioned we could include new sidewalks and bike paths to the plan when applying for the grant. Shannon Ruh, our previous economic development director, had already put together info for the safe route grant. Alex and Ryan are going to review what she has put together.

Street and Alley crew will start patching sidewalks themselves next year rather than contracting the work. For now, we'll still contract out large repairs or new sidewalk.

### **Drug testing, incident/accident reporting, and supply purchasing policies**

Alex presented examples of drug policy, incident report, and accident report. Further review needed of random drug screen policies and post-accident/reasonable suspicion policies. All agreed to begin process of implementing the incident/accident reporting forms.

### **Budgeting**

Group discussed pros and cons of combining the Parks and Street & Alley Budgets. No action taken.
