

Water Committee Meeting Minutes June 25, 2024

The meeting was called to order at 10:08 AM by Chairman Eyrich.

Others present were members Kellie Ferrell and Bob Porth, also in attendance were Mayor Wise, Water Supt. Cappellano and Sewer Plant Operator Tom Barrett

The meeting's sole purpose was to discuss and prepare for our upcoming meeting with representatives of Teasdale Foods and ERH Enterprises. Chairman Eyrich turned the meeting over to Mayor Wise who led the discussion which centered around Teasdale's wanting to increase their effluent discharge to the pre-treatment lagoons by up to 100,000 gallons per day. The city wants to contract ERH to operate the lagoons which would become the financial responsibility of Teasdale. The project is in its beginning stages and no hard decisions were made at this meeting

No further business appearing, the meeting adjourned at approximately 10:55 AM.

Chairman Stephen Eyrich reporting.
